CAPABILITY STATEMENT

MISSION

The mission of ASRT, Inc., is to exceed our clients' expectations of high quality customer service and solutions while prioritizing the improvement of health, well-being, and breakthrough science and technology. We enable our clients to accomplish their goals and objectives in a timely and cost-effective manner.

ABOUT

ASRT, Inc., is an 8(a) certified small business that offers services in health sciences, information technology, and other related fields. We team with clients that include the federal government, state governments, the private sector, and other domestic and international organizations. Founded in 2017, our goal is to embark and charter innovative science and technology-based solutions to advance efforts in the fields of health, science, and medicine.

Our talented team of multi-disciplinary experts are dedicated to providing our clients with the utmost level of service. Our staff has an established reputation for delivering professionalism and a commitment to quality. We view our collaborations as an opportunity to contribute to breakthrough advances and address complex challenges.

CORE COMPETENCIES

DIFFERENTIATORS

At ASRT, **ethics** guide everything we do, from how we interface with our clients to how we treat one another. We believe that a commitment to **values** and ethical practices is the foundation for **success**. We hold all of our employees **accountable** for ethical behavior established by a common code of business ethics and **compliance**. In addition, we partner with organizations that are committed to operating under similar standards of business ethics and **integrity**.

ASRT's Program Management Professionals maintain close **communication** with clients and employees. We maintain **awareness** of the current **state of the art** in fields relevant to our clients' interests and provide **solutions** to advance their strategic and operational activities. We maintain **active networks** of top experts in fields of **professional scientific services**. Our **academic and industry partnerships** broaden our knowledge base and enable us to acquire the most **highly qualified personnel**. In addition, our Program Managers hold the relevant technical background to **understand** and better our clients' missions.
